

# Anneli Voss

Backend Engineer — Berlin

anneli.voss.fake@example.com · +49 30 0000 0022 · [github.com/avoss-fake](https://github.com/avoss-fake)

---

## Profile

7 years of backend engineering, the last 3 in payments at a European neobank. Comfortable with weekly on-call rotations. Open to relocating to Singapore for the right team and product.

## Experience

### Senior Backend Engineer — Nordbank Digital (Berlin)

2021 – present

- TypeScript / Node services for card issuing and authorization flows.
- Worked alongside the ledger team — familiar with double-entry concepts but did not own the ledger.
- Stack: Node, **PostgreSQL**, Kafka, **GCP** (Cloud Run, BigQuery). Not AWS.
- Weekly on-call rotation; led 2 incident retros that became internal training cases.
- Some **Go** for an internal feature-flag service (side project that made it to prod).

### Backend Engineer — Vendaro (Berlin)

2018 – 2021

- E-commerce checkout in Node and PostgreSQL.
- Built a webhook delivery service with retry & dead-letter handling.

## Education

M.Sc. Computer Science, TU Munich, 2018. B.Sc. Computer Science, TU Munich, 2016.

## Skills

- **Strong:** TypeScript, Node, PostgreSQL, Kafka, GCP, Docker.
- **Working:** Go (side projects), Python.
- **Concepts:** event-driven architecture, double-entry accounting (literacy not ownership).
- **Languages:** German (native), English (fluent).
